General Conditions

The following terms and conditions define the legal obligations of the parties, who agree to accept these terms and conditions:

Please fill out order form as completely as possible; type or print, please. If you don't know the quantity of parts in your order, we will count them upon receipt at our laboratory.

Please allow 8 weeks for processing and delivery.

We will send you an invoice at the end of the processing of your order. Order is sent back to you as soon as we receive the payment for the invoice.

We ship all orders via traceable service.

In the event of damage during shipment it is the sender's responsibility to initiate action with the courier involved.

Any complaints concerning the quality of service must be reported to Ortho-Clean within 10 days of receipt of Your order.

All items sent for recycling by a client are returned to the same client. Our quality control procedures prevent mixing of orders between different clients.

The returned items are decontaminated but not sterilized.

In the event of loss between our various laboratories or accidental damage or deterioration of items during treatment the client will be indemnified by Ortho-Clean to the value of 0.15 € for every bracket and 0.30 € for every band, regardless of the manufacturer's brand.

After recycling, items which are considered faulty or defective will be separated and noted as such, at no charge for the client. However, the quality or sorting of returned articles are an indication only as we do not intend to supersede the judgment of the practitioner.

In the event of litigation on the quality of the service, the client must return the entire batch of recycled items to Ortho-Clean for the latter to assess the validity of the complaint.

The place of litigation is Dellstedt, Germany
